

# JAZMIN WASHINGTON

## PROFESSIONAL SUMMARY

Currently a junior at Agnes Scott College in a 3-2 Dual Degree program with Georgia Tech, aiming for a Bachelor's degrees in Industrial Engineering and Liberal Arts. In high school, I was in a STEM program called CDAT, working on team projects covering math, chemistry, language arts, and technology. In my engineering studies I focus on designing and developing devices. I'm a motivated achiever with strong teamwork and communication skills who is comfortable working both in a team and independently.

## SKILLS

- Microsoft Office
- Python
- Excel
- Project Management
- Team Building
- Active Listening

## WORK EXPERIENCE

### FedEx Industrial Engineering Intern

Virtual – 1000 FedEx Drive | Moon Township, PA  
Jun 2023 – Aug 2023

Contributed to field operational support and the development of labor standards during the Summer 2023 internship at FedEx Ground. Employed Excel to establish a base data tracker that is still used for overseeing the inbound and outbound flow of packages at various hub locations. Responsibilities extended to evaluating and reading the data to predict the productivity of diverse sites/locations within the organization.

### Resident Advisor

Agnes Scott College | Decatur, GA  
Aug 2023 - PRESENT

I serve as a Resident Advisor in a first-year dormitory, I provide essential support and guidance to incoming students. Foster a positive and inclusive living environment through event programming, community-building activities, and facilitating open communication among residents. Address and resolve concerns related to residential life, handle conflict mediation and help residents adjust to college life.
